Weybridge Assets expands their reach into Australia and the Ivory Coast.

November 11, 2015/Singapore – Weybridge Assets, Inc. has served their global client base from their Singapore headquarters since 2010. The company’s expansion into Australia and the Ivory Coast will now allow for greater interaction with their client’s and further enhance their global coverage.

Australia is entering its 25th year of uninterrupted annual growth and forecast to have average annual real GDP growth of 3.0 per cent between 2015 and 2019. It has increasingly tied to fast-growing economies in the Asia Pacific, supported by high productivity levels, with 16 out of 20 industries rating above the global average. Australia is also an important contributor to five sectors expected to drive future global growth: agribusiness, education, tourism, mining and wealth management, and is home to the world’s third largest pool of funds under management and one of the largest in Asia.

“Australia’s economic resilience and potential provide a safe, low-risk environment in which to do business” said Weybridge Assets Director of Operations Mr. James Tyler.

Mr. Tyler will also continue to oversee the expansion within the Ivory Coast and recently stated “Foreign direct investment plays a key role in the Ivorian economy, accounting for between 40% and 45% of total capital in Ivorian firms. France was overwhelmingly the most important foreign investor, however in recent years, French investment has accounted for only about one-quarter of the total capital in Ivorian enterprises, and between 55% and 60% of the total stock of foreign investment capital, the rest is now attracting a wider investment audience of which Weybridge Assets is a major player”.

About Weybridge Assets:

Founded in 2004, Weybridge Assets Inc. is a unique financial services provider embracing responsible finance by offering financial services to its clients in an accountable, transparent and ethical manner, specializing in portfolio management, purchase and sale of financial instruments and corporate finance advice.
